GERMAN AFTER WAR TRADE PLOT SOUGHT Food Commissioner Is Upheld

Great Teuton Owned Firms Secretly Work to Seize Business, Is Report.

INQUIRY TO START HERE

Evidence May Connect Conspiracy With \$36,000,000 Enemy Fund.

A public investigation to develop the truth in regard to reports that great German owned industrial concerns are competing in domestic trade with American enterprises and are only waiting for peace to begin an active campaign in American markets for the benefit of Germany will be begun this week.

Papers that have come into the possess sion of the bureau of investigation of the office of the Alien Property Custodian indicate that before the United States entered the war a number of important German concerns, some of which were dominant in their respective inulated their affairs so as to put ownership in the names of Germans who had the advantage of American citi-zenship. These concerns have been exzenship. These concerns in the absence of empt from seizure in the absence of proof of concealed ownership for Ger-

Full Inquiry Planned.

The investigation will be of the ut importance for the protection of most importance for the protection of Americans who have invested large sums in experimental exploitation of commodities which before the war were in German hands. These pioneers in infant American industries, particularly those who are building up the domestic manu-facture of dyes, are not to be exposed immediately after the war to the cut-throat competition of long established firms whose American ownership is a mere pretence if the proposed investi gation can stop it.

A mass of documentary evidence has been assembled for use in the investiga-

tion. It is planned to make a comprbensive inquiry in the collection and disbursement of German moneys in the United States since the European war

The investigators have much new mat ter to disclose and a number of wit-nesses to examine who have not ap-peared in earlier German propagands Much attention will be paid to the affairs of a German-American banking house that was in intimate re-lations with the Deutsche Bank of Ber-Iln and to one Aaron Hecht, financial gent of the German Embassy preceding r. Heinrich Albert. The Government has proof of the ex-

nditure of \$36,000,000 in this country in the interest of Germany from the out-break of the European war. Good sized blocks of this have been accounted for. The Evening Mail absorbed \$1,100,000, and almost \$2,000,000 was expended through the Hamburg-America Line, the latter sum largely for supply ships for German raiders in the early days of the war. But the disbursement of much of this money has not been traced by the Government and it is hoped that supplementary accountings will be a product of the investigation about to begin.

While the curve of the influenza and neumonia epidemic in New York went fown sharply yesterday, with a drop of 2,085 new cases of influenza, a decrease of 143 cases in the pneumonia report and a decrease of 117 in the number of deaths due to the diseases, Health Commissioner Royal S. Copeland said that to-day's figures will about parallel those

to-day's figures will about parallel those of last week.

"No one," he said, "must allow himself to be fooled by the big decrease shown in the reports for the twenty-four hours ended at 19 o'clock Monday morning, as no mail was received by the Health Department Sunday after-noon. But I feel that the real decline has started, and if our experience here is similar to Boston's there should be a big decrease in the number of new cases reported during this our fifth

week of the epidemic."

The Health Commissioner emphasized the necessity for continued vigilance against a further spread of the disease and the continuance of precautions against it. At the same time he said he would make his report to the city similar emergency.

Luxburg were made by Count James Minotto, son-in-law of Louis P. Swift. Chicago packer, to Alfred L. Becker, Deputy State Attorney-General, in an inquiry started here at the request of the French Government. A summary of Minorto's testimony has been cabled o Paris. The full text has been sent Mr. Becker said yesterday that Mi-

notto served as a go between in the Call-laux-Luxburg conferences. The official would not permit excerpts to be mad from Minotto's testimony in advance of the trial. Minotto admitted, Mr. Becker said, that he took part in extended conferences between Caillaux and the Ger-man Minister in 1915. "The Count." Mr. Becker sald, "was

reluctant at first to reveal his knowledge of the alleged Calliaux conspiracy, but finally confessed and told the details of his connection with the Buenos Aires negotiations."

Minotto's Testimony Corroborated. Minotto's testimony has been corroberated by others, Mr. Becker said, and the collateral depositions, with the testi-mony of Minotto under examination, were delivered to the French Embassy or mailing to France. Minotto testified here last week. He was brought here from the Government's
